U S PATENT NO. 6,533,015

## CAPABILITIES:

Our patented **Race Label Standard** applicator was the 1st machine we began manufacturing over 20 years ago. It is used for applying labels to **Straight Cylindrical Bottles, containers, cans, & jars**. The well crafted, heavy duty RL-1 is extremely easy to operate, fast, affordable and effortlessly applies labels with Spot-on perfection. The RL-1 is capable of applying a single, semi-wrap, full wrapping or front & back labels to Straight cylindrical bottles & containers. Front and back label application requires the optional **Gap Guide**. The RL-1 is also available in a **WIDE format (RLW-1)** for taller labels and taller bottles ( with a web width from ½” up to 12½”.

The RL-1 can be customized with the optional **Lip Balm and Small Vial Attachment** allowing you to apply labels to small bottles, jars and containers ranging from ½” up to 1½” in diameter.
